

ARYAN JAISWAL

Gorakhpur, UP, India | +91 9919585935 | aryanjais2024@gmail.com
LinkedIn | GitHub | LeetCode | Codeforces | Codolio
MERN Stack Developer | Software Developer Intern | Problem Solver

PROFESSIONAL SUMMARY

UG student at NIT Hamirpur (CGPA: 8.01) with hands-on experience building full-stack web applications, REST APIs, and data-driven frontend projects using the MERN stack. Currently interning as Software Developer at 360 Ghar; skilled in agile development, API integration, debugging, and responsive design. Industry-certified in Data Science and AI; actively solved 100+ problems on LeetCode and Codeforces covering arrays, trees, graphs, and dynamic programming.

EDUCATION

National Institute of Technology Hamirpur

2024 – Present | Hamirpur, Himachal Pradesh

B.Tech in Mechanical Engineering | CGPA: 8.01

TECHNICAL SKILLS

Programming Languages: C, C++ (DSA), Python, JavaScript (ES6+)

MERN Stack: MongoDB, Mongoose ODM, Express.js, React.js, Node.js

Frontend Development: HTML5, CSS3, Tailwind CSS, DOM Manipulation, Responsive Web Design, Chart.js, Canvas API

Backend Development: REST API Design, JWT Authentication, MVC Architecture, Middleware, Authentication

Database: MongoDB, Mongoose ODM

Tools & Technologies: Git, GitHub, VS Code, Postman, RapidAPI, npm

Software Concepts: Data Structures & Algorithms, API Integration, Debugging, Modular UI Design

Soft Skills: Communication, Teamwork, Self-Learning, Time Management, Creative Thinking

EXPERIENCE

Software Developer Intern | 360 Ghar

Jun 2026 – Aug 2026 | Remote

- Working as a Software Developer Intern at 360 Ghar, collaborating closely with the engineering team on designing, developing, and debugging software applications and internal tools.
- Writing clean, maintainable code and contributing to feature development, bug fixes, and performance improvements; reporting to Ravi Sahu.
- Participating in code reviews, team discussions, testing workflows, and technical documentation as part of the internship.

Internshala Student Partner (ISP) | Internshala / Scholiverse Educare Pvt. Ltd.

Jun 2025 – Present | Remote

- Selected for Internshala Student Partner program focused on promoting internships and online training opportunities among college students.
- Conducting student outreach, awareness campaigns, and campus-level communication for internship and training programs.
- Developing communication, planning, and community engagement skills useful for collaborative software teams.

PROJECTS

360Ghar AI Search | HTML5, CSS3, JavaScript, AI Integration | Live Demo

- Developed an AI-powered property search interface for 360 Ghar, enabling intelligent search and discovery of real estate listings with a clean, responsive frontend; deployed on GitHub Pages.
- Implemented interactive search UI components, filter mechanisms, and dynamic result rendering for a seamless user experience.
- Designed with modern frontend principles including component-like structure, event-driven interactions, and mobile-responsive layout.

EcoTrace App | HTML5, CSS3, JavaScript | Live Demo

- Developed EcoTrace, a web application focused on environmental tracking and sustainability awareness, featuring an interactive and data-driven frontend interface.
- Implemented dynamic UI elements, data visualization components, and user-friendly workflows to help users track and understand their environmental footprint.
- Applied responsive design principles and clean JavaScript architecture for a polished, recruiter-friendly web application experience.

RailbrainX – AI Railway Traffic Management Dashboard | HTML5, CSS3, JS, Chart.js, Canvas API, RapidAPI | Live Demo | GitHub

- Engineered a full-featured railway traffic management dashboard supporting train simulation, route visualization, platform monitoring, real-time status tracking, and analytics-driven decision support.
- Implemented Canvas API visuals and Chart.js metrics to convert operational data into readable dashboard components.
- Designed front-end workflows around interactive navigation, API-driven data display, conflict/status visibility, and clean UI organization.

Personal Portfolio Website | HTML, CSS, JavaScript | Live Demo

- Designed and built an interactive responsive portfolio with project cards, profile links, theme toggle, contact form, project filters, and modal interactions.
- Applied modern UI principles, hover effects, component-like section structure, and JavaScript event handling to create a recruiter-friendly portfolio experience.
- Showcases GitHub, LinkedIn, LeetCode, Codolio, Codeforces, RailbrainX, certifications, and full-stack development skills; deployed on GitHub Pages.

CERTIFICATIONS

- Introduction to Data Science – Cisco Networking Academy, completed Jun 14, 2025.
- Python 101 for Data Science – Cognitive Class / IBM Developer Skills Network, completed Jul 17, 2025.
- AI for Beginners – HP LIFE / HP Foundation, completed Jun 9, 2025.

ACHIEVEMENTS & COURSEWORK

- Maintaining 8.01 CGPA while pursuing Mechanical Engineering and parallel software development learning.
- Completed certifications across Data Science, Python, and AI fundamentals to build cross-domain technical awareness.
- Actively solving 100+ problems on LeetCode and Codeforces (DSA: arrays, trees, graphs, DP); all projects documented on GitHub with version control best practices.

CODING PROFILES

LeetCode: leetcode.com/u/aryans_logic | Codeforces: codeforces.com/profile/aryan2025 | GitHub: github.com/Aryan-developer613 | Codolio: codolio.com/profile/aryan2024
